

Baggeridge Country Park

Baggeridge Country Park is a beautiful area of countryside on the doorstep of the Black Country. Being set back from the roads, its secluded delights are revealed as you explore further.

Baggeridge Country Park is ideal for those looking for wildlife and wishing to enjoy a trip to the countryside with peace and quiet.

There are also many activities available at the park and there are facilities for everyone, including a tea shop, children's play area, miniature railway and aerial ropes adventure.

Route

There are four trails around the park, of varying levels of distance and difficulty. You will need a map, see overleaf.

1. Easy Access - approximately 30 minutes

This surfaced route is designed to be as level as possible. It allows easier access to people of all abilities. It takes you on a circuit from the car park with a couple of spurs taking you to a secluded glade and a viewpoint. Returning to the path will then bring you back to the start. Related easy access paths with slight gradients are around Baggeridge Pool and the Amphitheatre.

2. Toposcope Trail - approximately 45 minutes

From the car park, this trail takes you to Baggeridge Pool and then up the steeper path to the top of the pit mounds. Here you get a magnificent view of the park and surrounding area.

3. Baggeridge Circular Walk - 1.5 miles

The variety of Baggeridge Country Park's woods and meadows can be explored by following this trail. Crossing the occasionally muddy Clay Road to Lydiates Orchard is a shorter but no less delightful version.

4. Baggeridge Wood Walk - 2 miles

This scenic route on public footpaths leads through the private part of Baggeridge Wood. It leaves the park at the outflow of the Lower Wishing Pool and, by turning right at a crossroads, will bring you to Gospel End Common.

5. Guided Walks

The Ranger Service conducts various guided walks around Baggeridge Country Park throughout the year.

6. Mountain Bike Trail - approximately 2 miles
