Kinver Neighbourhood Plan – Regulation 16 Consultation Comments on Behalf of the Edward Marsh Centre CIO, Kinver

Policy KB11 Local Green Spaces

We welcome the inclusion of the Sterrymere within the defined area of K06 Edward Marsh Playing Fields.

Page 54 Conservation Map

This still shows the Edward Marsh Centre playing fields with the notation “Buffer Zone December 2013”, but this designation is not explained in the plan nor incorporated into Conservation Area policy. Indeed, it is difficult to see what this buffer zone seeks to keep separate. It should therefore be deleted.

Page 55. Photograph of the Flooding of Legion Drive

Despite our previous comments, this photo remains in the plan. It gives the misleading impression that the Edward Marsh Centre in the background was also flooded which was not the case nor has it been since. Whilst no doubt a dramatic photograph, its inclusion serves only to hamper our efforts to seek funding for the restoration and extension of our vital community facility and should be deleted.
